What is Data

Figure: "Data is Oil" to "AI is Electricity" [1]

- ▶ Clive Humby, UK Mathematician and architect of Tesco's Clubcard, said in 2006.
 - ▶ "Data is the new oil" [1].

V's of Big Data

Big Data Generation Model & Problem?

- ▶ The Model of Generating/Consuming Data has Changed

Old Model: Companies are generating data and all others are consuming data.

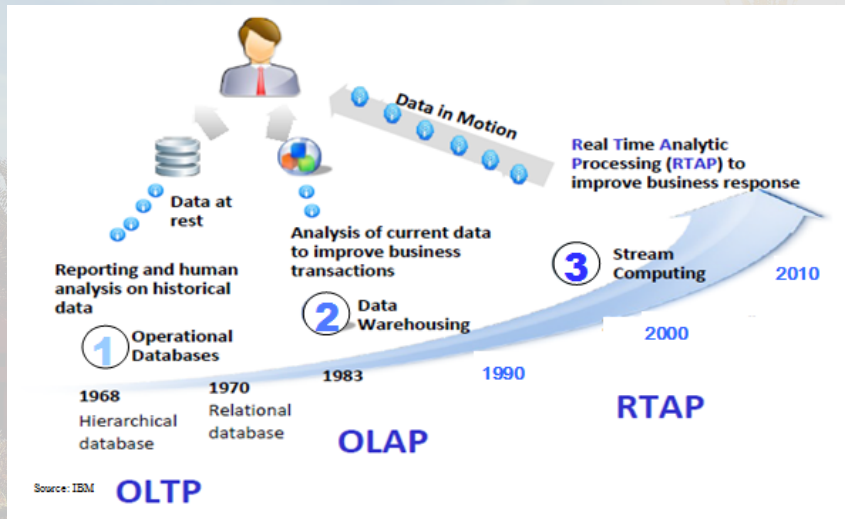

New Model: All of us are generating data and all of us are consuming data.

- ▶ The progress and innovation is no longer hindered by the ability to collect data.

- ▶ **Problems/Issues??**

1. Ability to **manage, analyze, summarize** and **visualize**?
2. Discover **knowledge** from the collected data in **timely**.
